

ABUNDANCE

Living the Abundant Life with NingXia Red

A few years ago, my husband died very suddenly. This left our family without his income from one day to the next. It was a frightening experience.

One day, while I was reading some Young Living literature, something caught my eye. Young Living was offering a special \$2000 monthly bonus to people who share their favorite products with others. I purchased a Poster board and made a drawing of the structure I needed to build to earn this bonus. It was a very simple, easy to understand plan.

NingXia Red is one of my favorite products because it has allowed me to get rid of my glasses! So I began sharing NingXia Red with my colleagues. Today, thanks to this great bonus, I can now pay CASH for my daughter's College education and my income keeps growing!

– Debra Raybern, ND, Master Herbalist

In 1993 I was struck by two 25 pound boxes falling from the shelves in a large national chain store. The severe injuries to my head, neck, back and body caused years of unbearable pain, suffering and financial ruin. Physical therapy helped somewhat, but I had to spend 18 hours a day in bed to deal with the pain.

In 2006 I was introduced to Young Living and NingXia Red. After just 30 days on NingXia Red I noticed a strength returning to my body. My emotions began to improve. I increased my intake to 6-8 ounces daily and people began asking what had happened to me because the improvement was so dramatic. To this regime I added some Young Living Essential Oils for the restoration of bones, muscles and ligaments.

Before my accident, I had been blessed to achieve several World Championship Titles in Equestrian Jumping, competitions. Many people thought my career was over and financially I could not imagine how I could ever compete again in light of our enormous doctor bills.

As I continued to share the miraculous benefits of NingXia Red with my friends, suddenly I began winning all kinds of prizes with Young Living, including an all expense paid Cruise! Finally, I read the literature and noticed that Young Living was offering a \$2000 monthly Bonus over and above commissions, just for using a little bit of strategy about where to place my customers and business partners. Now I am earning this extra \$2000 bonus each and every month with the help of God and my wonderful husband, Jim, I am back in the saddle with another World Cup Title! We don't even worry about the high gas bills to drive to the big shows! Everyday, my heart is filled with gratitude to God for leading me to Young Living.

24-page booklet detailing how to create
this \$2,000 bonus with Young Living!**

In 2005 my future looked very bleak. I weighed 315 pounds and a major stroke left me with paralysis on my face, extreme weakness, impaired night vision, brain fog and depression.

In February of 2007, I was introduced to Young Living Essential Oils and NingXia Red. Within 7 months my stroke symptoms have completely disappeared, I have lost 108 pounds, my energy level is soaring and my depression is gone!

NingXia Red is the foundation for my health program. This power infusion drink has completely changed my life. The added blessing is that I am now earning a \$2000 monthly bonus with Young Living and it keeps growing every month.
